DETAILED ACTION

1. This communication is in response to Applicant's amendment filed on September 20, 2007. The rejections cited are as stated below:

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 148 USPQ 459, that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or unobviousness.

2. Claims 3, 4, 6, 7, 9, 11, 13, 26 and 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wagner et al. US Pat. No. 5,424,938 A in view of Hawkins et al. US Pat. No. 6,029,146 A, as discussed in the previous office action mailed on June

1, 2006, and the decision by the Board of Patent Appeal and Interferences mailed on July 20, 2007.

3. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Wagner et al. US Pat. No. 5,424,938 A in view of Hawkins et al. US Pat. No. 6,029,146 A, and further in view of Harada et al. US Pat. Pub. No. 2003/0208440 A1, as discussed in the previous office action mailed on June 1, 2006, and the decision by the Board of Patent Appeal and Interferences mailed on July 20, 2007.

4. Claims 21-22 and 24-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hawkins et al. US Pat. No. 6,029,146 A in view of Harada et al. US Pat. Pub. No. 2003/0208440 A1, as discussed in the previous office action mailed on June 1, 2006, and the decision by the Board of Patent Appeal and Interferences mailed on July 20, 2007.

Response to Arguments

5. Applicant's arguments filed on September 20, 2007 have been fully considered but they are not persuasive. Applicant amended independent claims 3, 6 and 26 by incorporating the previously rejected dependent claims 8 and 30 into independent

claims 3, 6 and 26. The decision by the Board of Patent Appeal and Interferences mailed on July 20, 2007 has affirmed the examiner's rejection of all the claims.

The claims of the present application may be finally rejected in the first Office action, since it's a continuing application, and all claims of the continuing application are drawn to the same invention claimed earlier application. However, since the application was at the Board of Patent Appeal and Interferences, Applicant is given an opportunity to further amend the claims to over come the applied prior art references.
